Inventor(s): Conticello et al.
Application Number: 10/720,025
Filing Date: November 21, 2003
Confirmation No. : 3169

Examiner Name: NOAKES, SUZANNE MARIE
Group Art Unit: 1656
Reference Number: Emory 03007US
Class / Subclass: 514/012

Title: PLASTIC AND ELASTIC PROTEIN COPOLYMERS

DECLARATION UNDER 37 CFR §1.132 BY:
VINCENT P. CONTICELLO; AND ELIZABETH WRIGHT

Dear Sir or Madam:

We, Vincent P. Conticello and Elizabeth R. Wright, hereby declare as follows:

1. That we, along with Robert A. McMillian, are coinventors of the currently pending claims of U.S. Patent Application No. 10/720,025 for "Plastic and Elastic Protein Copolymers", filed on November 21, 2003.
2. Vincent P. Conticello is currently a Professor of Chemistry in the Department of Chemistry at Emory University.
3. Elizabeth R. Wright is currently the Director of Robert P. Apkarian Integrated Electron Microscopy Core and Assistant Professor of pediatrics in the School of Medicine at Emory University.
4. We have read the rejections of the claims in the Office Action mailed July 29, 2010 and understand that following reference has been cited as a basis of a rejection under 35 U.S.C. §102(a): Wright and Conticello (Adv. Drug Deliv. Rev., Oct. 2002, 54:1057-73 (hereinafter "Wright and Conticello reference")).
5. We are the coauthors of the Wright and Conticello reference.

6. That we, along with Robert A. McMillian, have been collaborating in the conception, development, and reduction of practice of synthetic protein copolymers as presented in the currently pending claims of U.S. Patent Application No. 10/720,025.
7. The Wright and Conticello reference was prepared at least in part based on this collaboration. In particular, because Wright and Conticello is a review article, the discussion of the subject matter in the Wright and Conticello reference was prepared based at least in part based on the research discussed in Wright et al., "Thermoplastic Elastomer Hydrogels via Self-Assembly of an Elastin-Mimetic Triblock Polypeptide," Adv. Funct. Mater. Feb. 2002, 12:149-54 (Wright et al. reference) for which Robert A. McMillian is also a coauthor. Robert A. McMillian was not named as a co-author in the Wright and Conticello reference because he did not participate in drafting the manuscripts supplied to the publisher.
8. All statements made herein of my own knowledge are true, and all statements made on information and belief are believed to be true; these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both under 18 U.S.C. §1001 and that such willful false statements may jeopardize the validity of the patent application or any patent issuing therefrom.
